

Voltage: 450V (600V UL)

Temperature: 110°C

Intensity: 32A (20A UL)

Tightening torque: 0.5 Nm

Metric: M 3

Technical data:

- 12 poles in standard execution.
- Possibility of cutting in different number of poles.
- Possibility of engraving on demand.
- Captive screws.
- High screw mounting to facilitate the connection of the driver.

Executions:

According to insulating material:

- 1104 VD (fireproof) T110°C
- 1104 FV (with mineral charge) T180°C
