

**Voltage:** 450V (600V UL)

**Temperature:** 110°C

**Intensity:** 24A (15A UL)

**Tightening torque:** 0.5 Nm

**Metric:** M 3

**Technical data:**

- 12 poles in standard execution.
- Possibility of cutting in different number of poles.
- Possibility of engraving on demand.
- Captive screws.
- High screw mounting to facilitate the connection of the driver.

**Executions:**

According to insulating material:

- 1104 PH V0 (fireproof) T110°C
- 1104 PH FV (with mineral load) T180°C

According to connection terminal:

- 1104 PH (with cable protector). With this model the connection capacity
