

LY6021-A

LY6021-B

LY6021-C

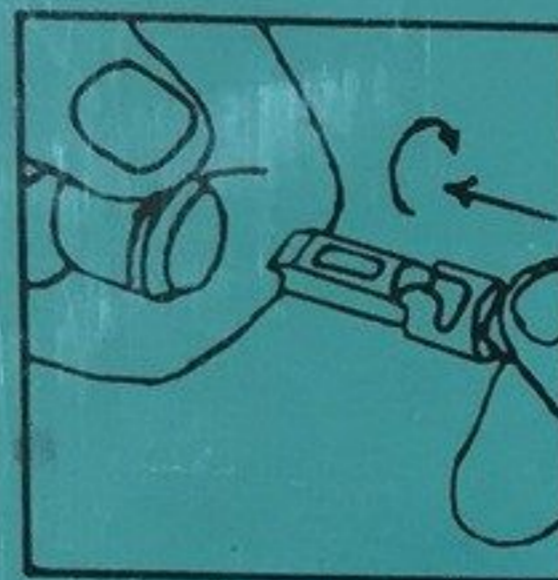

LY6021-D

Description:

- Insert and cut cable terminations effortlessly with the Punch Down Tool. Adjustable high/low actuation setting accommodates termination requirements or operator preference.
- Precision blades spread the terminal prongs to allow the insertion of the wire into the contact providing a "gas tight" termination that resists corrosion. The blade finishes the job in the same motion by neatly cutting off excess wire. Blades made by SAE:4140 and harden. All are interchangeable and reversible.
- High/low actuation setting can be changed to match specific termination requirements or operator preferences.
- Sure-Lock blade holder provides fast, easy blade changes and prevents blade pullout during operation.
- Convenient storage compartment with unique locking mechanism provides storage for spare blades and helps prevent blade loss.

BLADE	TERMINAL BLOCK
LY6021-A	FOR USE ON 66 type
LY6021-B	FOR USE ON 110/88 type
LY6021-C	USE ON 630A phone jack
LY6021-D	FOR USE ON krone type
