

TESTBOY PROFI III LCD

Two-pole voltage tester

The Testboy Profi III LCD is the new top model of our proven Profi series. The innovative two-pole voltage tester convinces with a wide performance range and practical one-hand operation. It enables tests without finger contact and, due to the highest safety level, CAT IV 1000 V, is also immediately suitable for measurements on hybrid and electric vehicles, as well as photovoltaic installations.

How you benefit:

- | Highest safety level CAT IV 1000 V
- | Large, illuminated LCD
- | Voltage indication up to 1000 V AC and 1400 V DC
- | Resistance measurement up to 199,9 k
- | Frequency indication up to 500 Hz

Specifications

Technical Data	TESTBOY PROFI III LCD
Display	Optical, LCD
Overload Category	CAT IV 1000 V
Voltage Test	3–1000 V AC (TRMS/RMS) 4–1400 V DC
Continuity Test	0 – 5 kOhm with acoustic signal
Phase Indication	> 100V AC
Polarity	Yes (- in the LCD)
PELV indication	Optical and vibrating
Protection	IP 65
Standard	EN 61243-3:2014
Frequency measurement	0 - 1000 Hz
Data hold	Voltage and resistance
Auto power-off function	Yes
FI/RCD check test	30 mA at 230 V AC using two buttons
Single-pole phase testing	Yes
Two-pole phase sequence testing	Yes
4-mm-Prüfspitzenadapter	Removable
Dimension	300 x 75 x 20 mm
Weight	270 g
Colour	Red / black
Scope of Delivery	Incl. batteries
Supplies, Optional	Carrying case
