

Model number : CTE-25AS

Max. Output Pressure:700Kg/cm²(10000psi)

Output Pressure(kg/cm)²:Low 0-20; Hight 20-700

Output Oil(L/min):Low 2.6; Hight 0.32

Motor(kw):1

Oil storage(cc):2700

Weight(kg):14.8

Size: LxWxH(mm):235x255x410

1. High-pressure hydraulic power pump, accompanied with a variety of single-hole hydraulic tools, driven by a motor at high speed two-section high and low pressure quickly out of oil, the maximum output pressure 700kgf/cm² (10000psi).
2. Electric hydraulic pump oil provide quickly, saving time and effort high efficiency.
3. With bottom switch JOG control.
4. With 2M high pressure hose, 360-degree rotation direction.
5. Applied voltage 110V (220V motor is also provided).
6. Oil storage capacity, suitable for oil: R32 special circle oil.
