

Height : 371 mm

Weight : 14.8 kgs

■ Specifications :

Throat Depth : 70 mm

Max. Pressure : 700 bar

Oil Required : 76 cc

Max. Output : 34.20 tons / 304.3 kN

■ Punching capacity :

Max. thickness : 15 mm

Max. diameter : 20.5 mm

20.5 mm diameter hole with 13 mm thick mild steel.

For angle iron, plates, beams and bus bars.

■ Features :

C-head made by forging for greater strength.

Convenient handle for easy carrying.

Base stand for easy positioning and accurate punching.

Single action piston/cylinder arrangement reduces iron chippings.

Punch and die changeover tools included.

Operated by any hydraulic pump with rated oil pressure of 700 bar (10,000 psi).

Efficient and safe to use.

■ Accessories :

Round punching dies for mild steel (10.5, 13.5, 17.5, 20.5 mm)

Hand pin, 4 mm T-type wrench

Plastic carrying case

■ Other punching die option :

Square punching dies : 5/16" , 3/8" , 7/16" , 1/2"

Oval punching dies : 5/16" , 3/8" , 7/16" , 1/2"
