

BT400

Battery & Electrical System Tester

BT400 is a compact standard battery and electrical system tester that provides great mobility and precise test results at the same time.

Features:

- Battery, Cranking, & Charging system tester

12V battery test / 12V START-STOP battery test / 12V & 24V cranking/charging system test / IR test

- LCD with Adjustable Brightness
- Start/Stop Battery Test Available

Performs accurate test for Start/Stop batteries.

- In Vehicle Test

Combines battery test & system test into a single task, providing a complete test result.

- Temperature Compensation

Different temperature compensation above/below 0°C (32°F).

- Compact Design with Protective Boot

Compact design provides great mobility when field test is needed.

- Backward Function Key

Selected wrong setting? Hold the enter key and go back to the previous stage

- 10 Languages Available
- Comes with English, French, Spanish, German, Italian, Portuguese, Dutch, Russian, Turkish, Czech

BT400 Product Specification

Model Number	BT400
Application	12V battery / 12V START-STOP battery test 12V & 24V cranking/charging system test IR test
LCD	4-line LCD screen with adjustable brightness.
Supported Battery Types	Flooded, VRLA/GEL, AGM Flat, AGM Spiral, EFB
Battery Ratings	CCA/SAE, EN, JIS, DIN, IEC, CA/MCA
Operating Range	40~2,000 CCA(SAE)
Voltage Range	8V ~ 31.5V
Dimensions (mm)	140 (L) x 100(W) x 30(H)
Languages	English, French, Spanish, German, Italian, Portuguese, Dutch, Russian, Turkish, Czech
